

The Town of Mt Laurel
Design Review Board

Homeowner _____
Date Prepared _____

DRB APPROVAL REQUEST: TREES

DRB Form H 1.1

General Requirement and Information

DRB approval is required prior to removal of any tree having a **trunk diameter of two inches or more measured six inches above the ground.**

Tree Identification and Reason for Removal

Common Name and Trunk Diameter _____
Description of Location _____
Reason for Removal _____

Other Required Information (check each box that is included in your Submittal)

- | | |
|--|---|
| <input type="checkbox"/> Sketch Site Plan | Provide a dimensioned sketch plan showing the subject tree in relation to your house and any other nearby trees. Note the trunk diameter and common name of each tree. |
| <input type="checkbox"/> Photos | Provide two or three photos showing the tree in context. At least one photo should show the majority of the subject tree. |
| <input type="checkbox"/> Arborist Report | Homeowner must provide a "Tree Condition Assessment" from an ISA certified arborist. A list of arborists can be found at www.treesaregood.org |
| <input type="checkbox"/> Emergency Request | Safety is paramount. Any tree that presents an imminent threat to persons or structures will get an expedited response. If a tree has already collapsed, you may have it removed while quickly submitting your request with a photo of the condition. |

Tree Replacement

The DRB may require that you replace any tree that is removed with a new tree of a specified type and size.

Supplemental Information

Homeowners should read "We leave the trees, but not every tree can be saved" in the April/May 2022 Newsletter, available on the homeowners' website at www.mtlaurelneighborhood.com
